

# TipMe Whitepaper

## 1. Introduction

TipMe isn't just another token—it's the beating heart of a micro-tipping revolution. Built on Binance Smart Chain (BSC), \$TIP is designed to empower creators, reward communities, and redefine value exchange with a massive 1 billion token supply. We're not here to speculate; we're here to dominate. Our ecosystem thrives on a gas-free, sustainable reward system, fueled by a 7% transaction tax that turns every trade and tip into collective strength. With \$TIP, we're not chasing trends—we're setting them.

## 2. Vision & Purpose

Our mission is simple yet seismic: make micro-tipping the global pulse of appreciation. \$TIP is the currency creators deserve—fast, rewarding, and fiercely ours. We reward in \$TIP because we believe it's destined to outshine its paired currencies, not lean on them like a crutch. This isn't a coin; it's a movement - sustainable, unstoppable, and built to crown the future of digital gratitude.

## 3. Tokenomics

### Total Supply

- 1,000,000,000 \$TIP: A billion-strong vault to fuel micro-tipping worldwide—no burns, just reach.
- 5% (50,000,000 \$TIP): Community Marketing Reserve (CMR) - locked 12 months, vested for growth.
- 5% (50,000,000 \$TIP): Development Support Reserve (DSR) - locked 12 months, vested for innovation.

### Transaction Fees

- Every trade (buy/sell) and transfer (TIP-to-TIP) incurs a 7% tax plus BSC gas fees:
- 1%: Locked in the Liquidity Pool (LP) via a timelock contract—unbreakable stability (burn option TBD).
- 3% Passive: Instantly redistributed to all \$TIP holders proportional to their holdings—feeless rewards, automatic and relentless.
- 3% Staking: Powers a fixed APY staking pool—lock \$TIP, earn guaranteed \$TIP, payouts feeless from the tax stream.

### Stability & Supply

Locked Liquidity: 1% LP tax locks for 2 years, securing deep pools for micro-tipping resilience.

No Burns: 1B \$TIP stays intact, maximizing tipping scale.

Trust: Feeless rewards, verifiable timelocks, and a tax system radiating supremacy—\$TIP's built to rule.

## 4. Staking Service

### Overview

Stake \$TIP and lock in a fixed APY - fed by the 3% staking tax from trades and transfers.

No uncertainty, just ironclad returns in \$TIP, delivered feeless, because we back our coin with absolute conviction.

### How It Works

Lock Period: Stake \$TIP for 30 days (fixed term).

Reward: Fixed APY (e.g., 20% annualized, adjustable by governance)—paid in \$TIP, sourced from the 3% staking tax, feeless payouts.

## Mechanics

3% tax per transaction (plus BSC gas) feeds the staking pool.

Pool funds a fixed APY, proportional to your locked \$TIP.

Claim rewards anytime during or after 30 days—gas-free delivery to your wallet.

Sustainability: If tax revenue dips below APY needs, rewards cap at pool balance—our system never breaks.

## Why It's Unrivaled

- Fixed APY: Rock-solid returns—stake and conquer, no doubts.
- Feeless Rewards: Passive and staking payouts land untouched by fees.
- \$TIP Faith: Rewards in our coin—because \$TIP's the titan of tomorrow.

## 5. Competitive Edge

Self-Belief: We reward in \$TIP—feeless payouts, sustainable—because it's our champion, not a shadow of another currency.

Micro-Tipping Mastery: \$TIP powers creators—every tip builds a value cycle no fleeting token can rival.

Green Might: Feeless rewards, eco-friendly design—\$TIP's leaner, stronger, fiercer.

## 6. The \$TIP Revolution

TipMe isn't a project—it's a prophecy. \$TIP is tipping's titanium backbone, a coin so mighty it'll thunder past all contenders. Stake it, hold it, tip it—every action fuels our empire. We're not just a runner; we're the race itself. Join \$TIP, claim destiny—humanity's wealth reborn in every micro-moment.
